## ***NEWS RELEASE***

### **NEW GORELL SCREENS PROVIDE A “BETTERVUE” AND IMPROVED VENTILATION**

**April 16, 2008, INDIANA, PA**—Gorell Windows & Doors has introduced BetterVue™ Screens as a new option for its complete line of window and door products. BetterVue screens are less visible than standard screens, giving windows a clearer, more open appearance because they’re made of durable fiberglass yarns that are smaller in diameter than standard screen yarns. BetterVue screens provide improved airflow and better ventilation and are also highly effective at deterring insects from getting into homes. They even keep homes cleaner by helping to block dust and dirt from entering windows and doors.

The new screens are available on Gorell’s complete line of window and door products—including double-hung, single-hung, sliding, casement and awning window models and sliding and hinged patio doors.

Gorell—2006, 2007 and 2008 ENERGY STAR® Sustained Excellence Award winner and Partner of the Year from 2004 to 2008—manufactures windows for replacement and new-construction applications, patio doors, porch and patio enclosures and aluminum storm windows and doors. The company markets its products through a network of dealers and distributors. Acknowledged as the most innovative and fastest growing manufacturers of
